Ron, For your meeting next week in DC I asked Jerry to have Ann send you directly a short update on Chesapeake ATGAS response, in terms of original findings, actions taken and current status.

Regarding Dimock, attached below are the messaging statements we have developed in recent weeks as we have rolled out the data. I'm not exactly sure that the week 2 statement is the "final, final" version but its close enough I believe to meet your needs for this ATSDR meeting. And of course the week 4-5 statement is a draft work in progress.

Thanks and good luck with the trip. den.
